

Water Filtration System

RIO

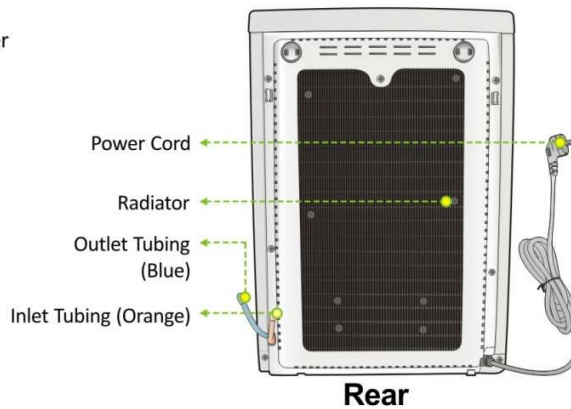

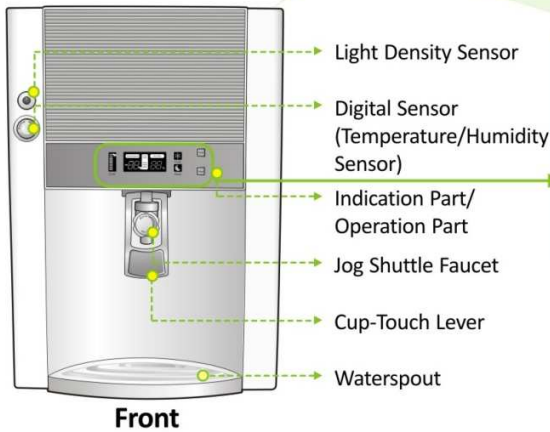

RIO (Fully Automatic)

SPECIFICATION

Filter Size/ Filter Life	Sediment	Neo-sense
	Pre-Carbon Membrane	11"/5,400l(279mm/1,400gal) 11"/10,800l (279mm/2,900gal)-50GPD
Tank Capacity	Post-Carbon Fine	8"/ 5,400l (203mm/1,400gal)
	Ceramic UV Lamp	7"/7,200l (178mm/1,900gal)
Filtration Capacity	Ambient Water	Ceramic
	COLD Water	6.7l (1.8gal) 3.6l (1.1gal)
Power Consumption		25°C, 60psi
		7.9l/hr (2.1gal/hr) 4.7l/hr (1.2gal/hr)
Dimensions (Width x Height x Depth)		110W
	Net Weight	13.4 x 19.4 x 21.0inch 340.4 x 492.8 x 533.4mm 20.5kg (45.2lb)

NAMES OF EACH PART

FEATURES

Micom Control System

Is easy to use as it is automatically controlled by Micom.

Attachable and Detachable Waterspout

Is very convenient due to attachable and detachable waterspout when a large amount of water is taken at a time.

Double Safety Water Level Controller

Prevents overflow by double-controlling water level of the storage tank.

Fine Filter

By adding Fine Filter, minimizes fine dusts which can be flowed into the tank through Post-carbon Filter.

Sleep Mode Function

As turning on the "sleep" switch, reduces automatically the operation time of compressor by sensing light density at night.

Advanced Anti-bacteria System

Enhances sanitation by using the silver-added activated carbon and ceramic filter.

Indicator of Temperature & Humidity

Shows indoor temperature and humidity on real-time base.

Prevention of Over cooling

Prevents Over cooling by making the operation of compressor stop in case that the temperature of cold water will fall down excessively.

"Soft Touch" Button

Adds customer convenience by adopting "Soft Touch" Button.

Automatic Cooling Control by Digital Sensor

Keeps cold water lower when temperature-humidity index is high, by detecting indoor temperature and humidity by digital sensor.

Convenient Jog Shuttle

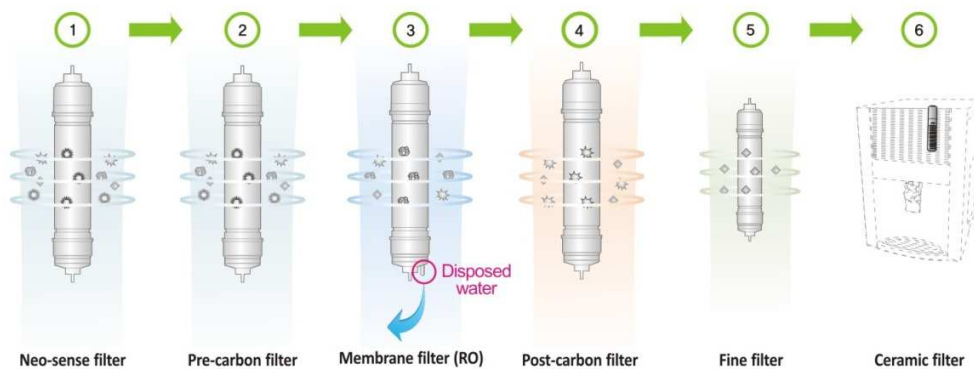

Is able to control water temperature from room water to cold water.

Boost Pump for Low Water Pressure

Superior water quality is guaranteed even in the area with low water pressure by pressurizing the feed water.

WATER FILTRATION PROCESS

Hi-Tech Sweet Water Technologies Pvt. Ltd.

An ISO 9001-2000 Certified and N.S.I.C. - C.S.P.O. Registered Company
