Multi Stage Water Purifiers & Spares

Domestic | Commercial | Industrial

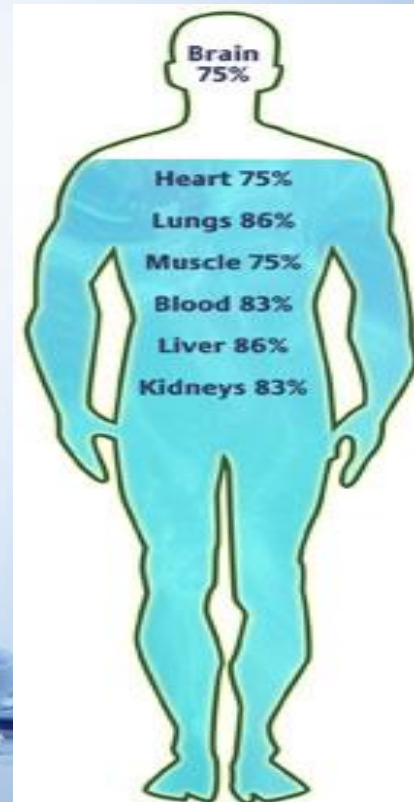

WATER IS LIFE

A SIMPLE CHEMISTRY

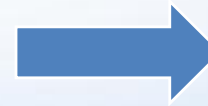

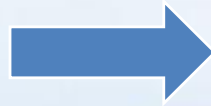

More than Two-Third part (about- 70%) of human body fluid is made-up of water.

- ❖ Brain = 75% water
- ❖ Heart = 75% “
- ❖ Lungs = 86% “
- ❖ Muscle = 73% “
- ❖ Blood = 83% “
- ❖ Liver = 86% “
- ❖ Kidney = 83% “

Water % throughout lifecycle

At birth	Age of 21-40	Age of 60	At death
90%	80% ~ 70%	60%	45%

Function of water in the Body

1. Water serves as a lubricant .
2. Water forms the base for saliva.
3. Water forms the fluids that surround the joints.
4. Water regulates the body temperature, as the cooling and heating is distributed through perspiration.
5. Water helps to alleviate constipation by moving food through the intestinal tract and thereby eliminating waste - that best detoxification agent.
6. Regulates metabolism.
7. Water acts as buffer to prevent damage to brain inside the skull.

Which water is best for US?

water, which has the Quality of-

1. Hydrating ✓

2. Antioxidizing ✓

3. Alkalizing ✓

4. Detoxifying ✓

(Hi-tech Antioxidant Alkaline water)

Is Best for You.

Product 2: revive

Antioxidant Alkaline Water

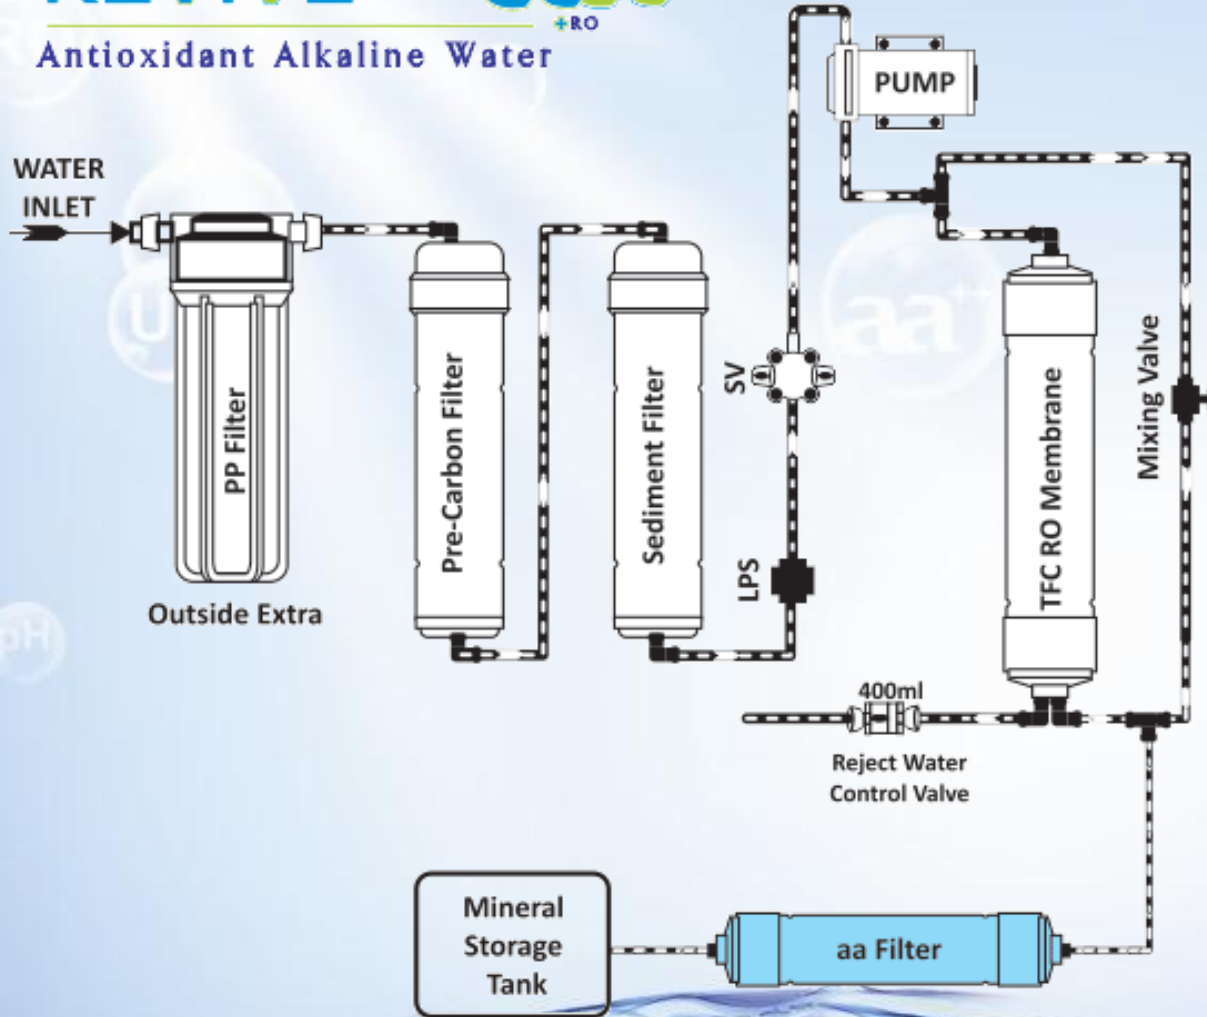

New Life - Specification

Filter Size/ Filter Life	PP Filter	11"/6 month
	Pre-Carbon	11"/12 month
	Sediment	11"/12 month
	Membrane	11"/ 24 month (1,900 gal) 80GPD
	aa Filter UV	11"/ 12 month(7000 ltr) 8"/24 month(10000 hr)
Power Consumption		with booster pump AC100-240V DC36V(1.8 Lpm)
Dimensions (Width x Height x Depth)		16.5x 10.2x 12inch 410 x 275 x 560 mm
Net Weight		12.5kg (27.5lb)
Production Capacity		10 Ltr/hr (2.6 gal/hr)
Tank Capacity		9 Ltr
Water Temperature		5-45°C
MAX TDS		<2000ppm
Removal Rate		>90-96%
Flush Mode		Automation
Inlet Water Pressure		0.15 ~ 0.35 Mpa
Low Pressure Setting		0.05 Mpa
Auto Flush Time		18s
Main Configuration		7 Stage + Pump + Auto Flushing

Antioxidant Alkaline Water

Revive - Specification

Filter Size/ Filter Life	PP Filter Pre-Carbon Sediment Membrane aa Filter	11"/6 month 11"/12 month 11"/12 month 11"/ 24 month (1,900 gal) 80GPD 11"/ 12 month (7000 ltr)
Power Consumption		with booster pump AC100-240V DC36V(1.8 Lpm)
Dimensions (Width x Height x Depth)		350 x 293 x 600 mm
Net Weight		10kg (22lb)
Production Capacity		10 Ltr/hr (2.6 gal/hr)
Tank Capacity		8 Ltr
Water Temperature		5-45°C
MAX TDS		<2000ppm
Removal Rate		>90-96%

Main Configuration		6 Stage + Pump + Auto Flushing

What is Antioxidant Alkaline Water?

- Antioxidant Alkaline Water enhances the delivery of nutrients to our cell with antioxidants. It neutralises acidic food thus making our body an alkaline environment. This also disarms free radicals and increases the stable oxygen levels in our body.

Ten reasons for alkaline water

1. Anti-Ageing Effects

2. Increases Metabolism

3. Improves Immune System

4. Supplies Essential Minerals (Ca, Mg, K, Na)

5. Neutralizes Acidic Wastes & Uric Acids

6. Powerful Anti-Oxidants & De-toxifier

7. Restores pH Balance In Body

8. Smaller Water Cluster Size

9. Reduces Cholesterol & Blood Sugar Level

10. Improves Blood Circulation

RO

pH

33°

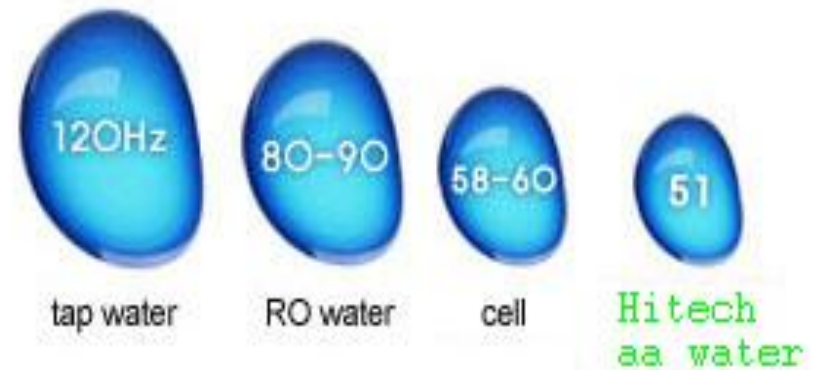

Observe the table below, it shows the obvious differences between Hi-tech alkaline antioxidant water and four other types of water.

Type of water	Tap water	R.O/Energy water	Mineral Water	Distilled water	Hi-Tech aa
Water molecules	11-13	9-10	10-13	12-13	6 to 7
ORP	400mV	350-400mV	250-350mV	420mV	-150 to -250 mV
pH	7-8	5.5-7	7-8	6-6.5	8.0 to 9.5
Antioxidant	NIL	NIL	NIL	NIL	YES

When the molecules are small it is readily absorbed by the body. A test is done by mixing oil and distilled water (left); and on the right is Hi-tech and oil. Amazingly it mixes together.

Water molecules - is the molecules per cluster . The bigger the number eventually means the size is bigger. As you can see Hi-tech molecules per cluster are half the size of the others.

- **ORP-** is known as “oxidation reduction potential” which it is a measurement to oxidize contaminants. In plain layman terms, the water’s highly negative charge gives the body an opportunity to release its highly positive charged toxic heavy metals and other toxic acid waste products stored in the cells. Its high oxygen content handles free radicals and corrects their damage. From the table before it shows that Hi-tech antioxidant alkaline water is the only one with a high negative charge.

What is pH ?

• pH = Potential Hydrogen

(Negative logarithm of Hydrogen Concentration)

Testing pH level by tester pH level of food

Alkaline

Neutral

Acid

pH 10

Alkaline ionized water

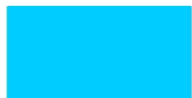

Lettuce
Spinach
Radish

pH 9

Egg Yoke

Acidosis

P^H

- **MORE P^H = MORE RESISTANCE**
- **LESS P^H = LESS RESISTANCE**

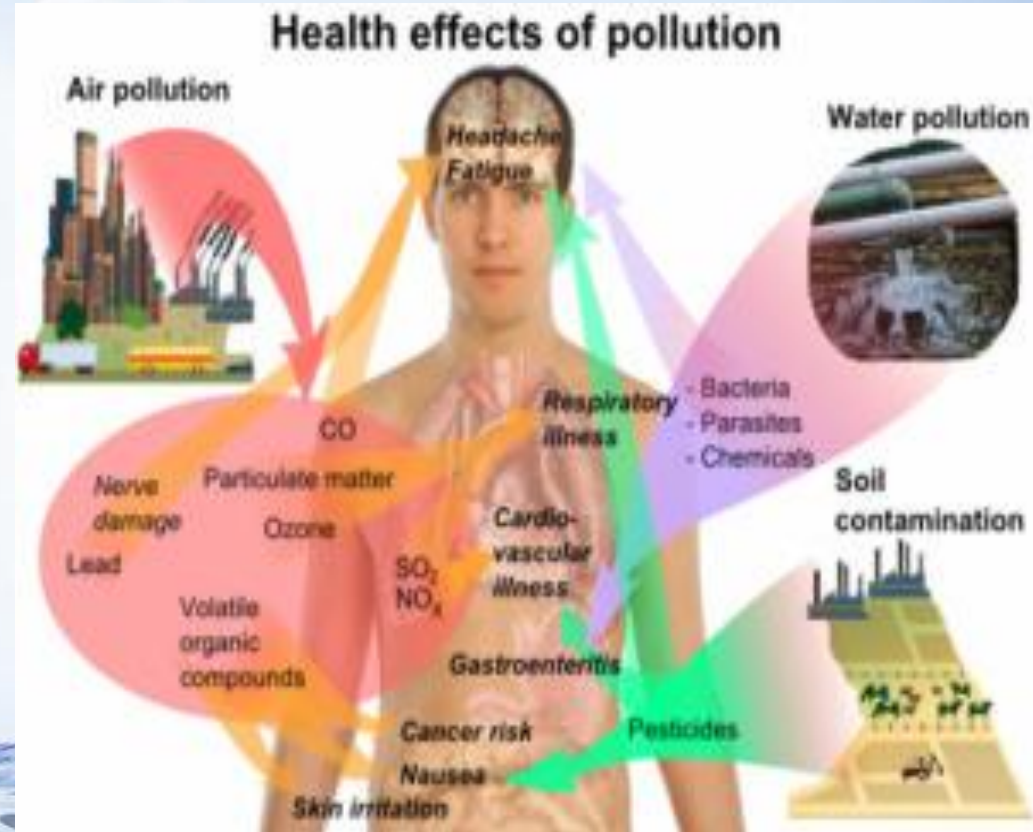

HEALTHY P^H

- **BLOOD P^H = 7.35 TO 7.45**
- **SALIVA P^H = 6.4 TO 6.8**
- **STOMACH P^H = 4**

WHY ACIDIC PH OCCUR ?

- AN ACIDIC PH OCCUR FROM ACID FORMING DIET,

- EMOTIONAL STRESS
- TOXIC OVERLOAD
- IMMUNE REACTION

- ANY PROCESS THAT DEPRIVE THE CELLS OF OXYGEN AND OTHER NUTRIENTS.

Antioxidant

Paper clips are placed in the 3 different types of water as shown. The paper clips will get rusted (due to oxidation) within a day, but not with Hi-tech antioxidant alkaline water.

After 72 hours

Tap Water

R.O/Energy Water

Hi-Tech Antioxidant
Micro Water

THE ROLE OF ANTIOXIDANT

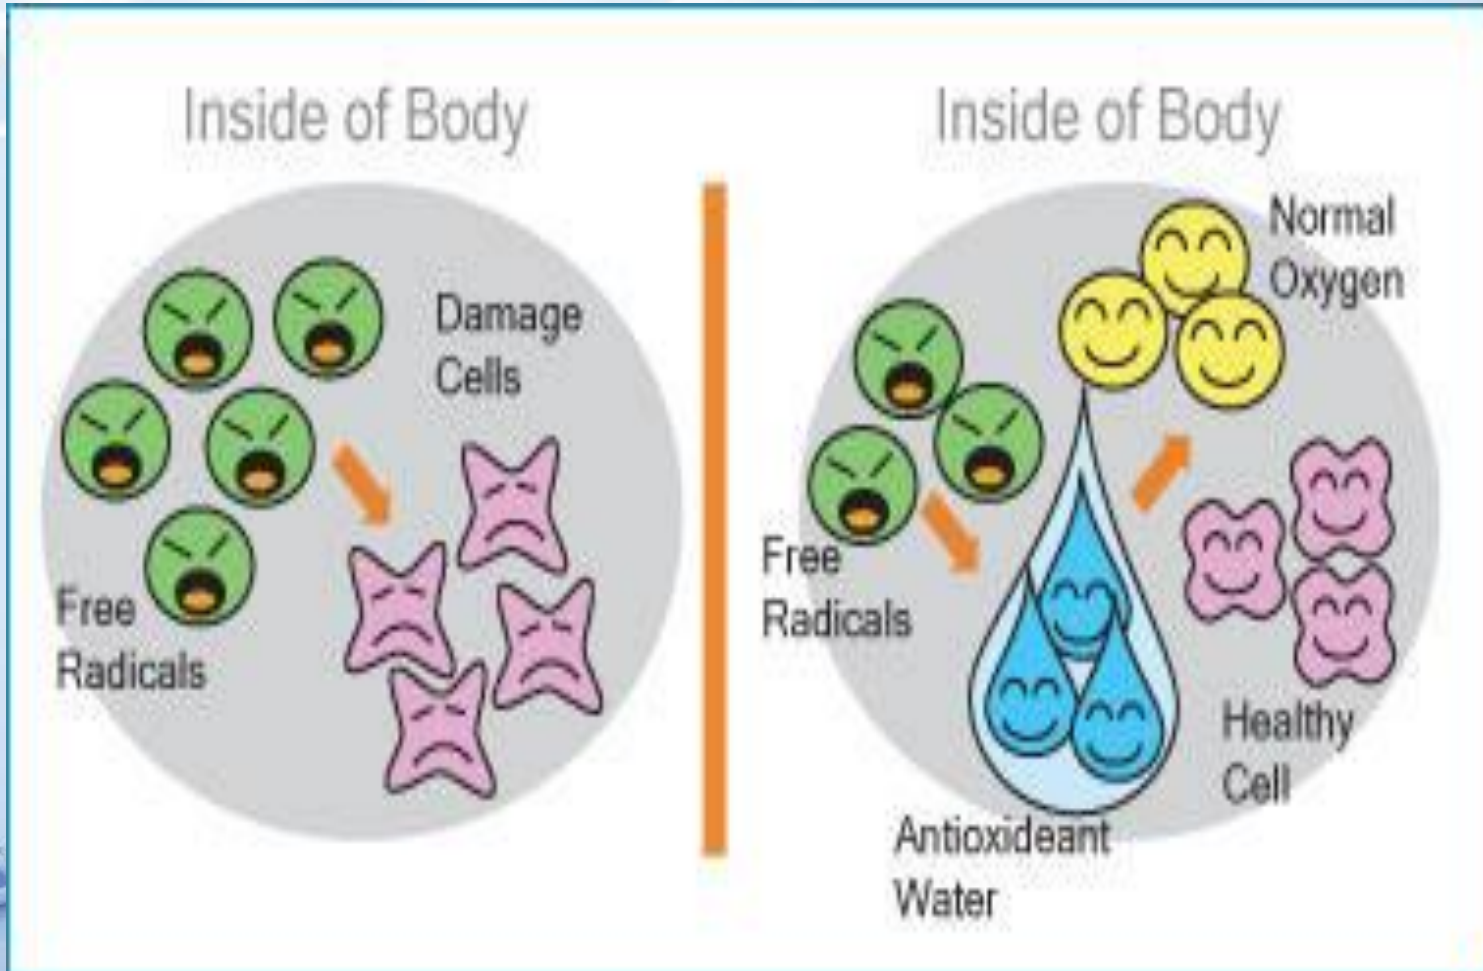

- 1) To prevent oxidation.
- 2) To slow down the aging process.
- 3) To remove free radicals, thus prevent cancer

What is Free Radical?

THE MICROBE IS NOTHING THE TERRAIN IS EVERYTHING

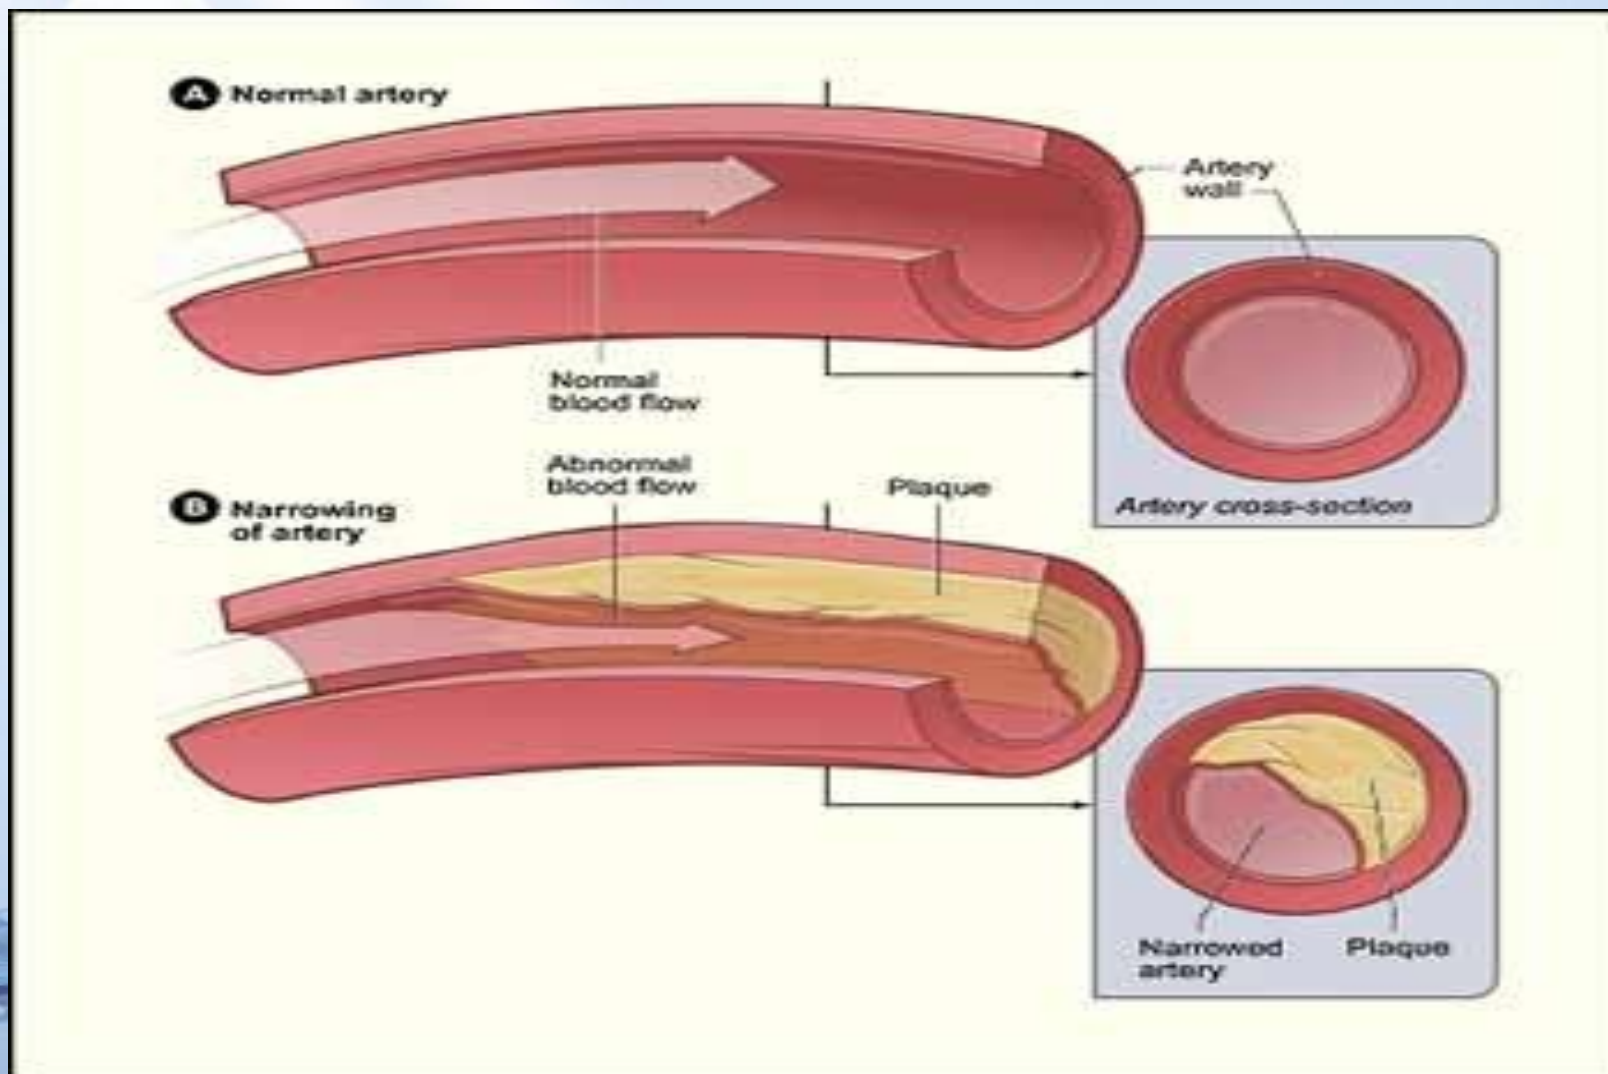

PREVENT DISEASE BY DRINKING HI-TECH ANTIOXIDANT ALKALINE WATER

- 1.GASTRITIS
- 2.DIABETES
- 3.HIGH BLOOD PRESSURE
- 4.OBESITY
- 5.HEPATITIS
- 6.CANCER
- 7.AGING
- 8.ARTHRITIS/GOUT
- 9.CONSTIPATION
- 10.HEART FAILURE
- 11.CAD(Coronary Artery Disease)
- 12.KIDNEY STONE
- 13.GALL BLADDER STONE
- 14.STROCKE
- 15.OSTEOPOROSIS
- 16.ASTHMA
- 17.IMPOTENCE

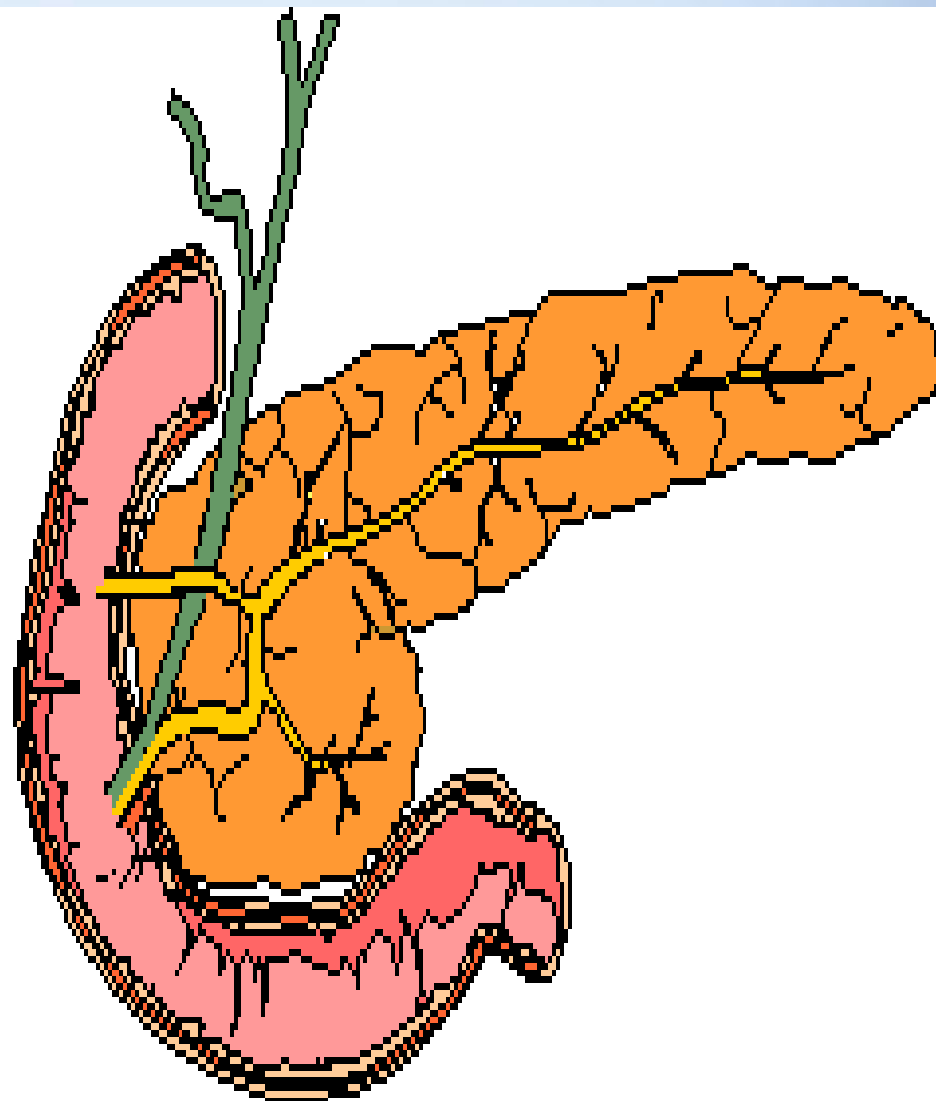

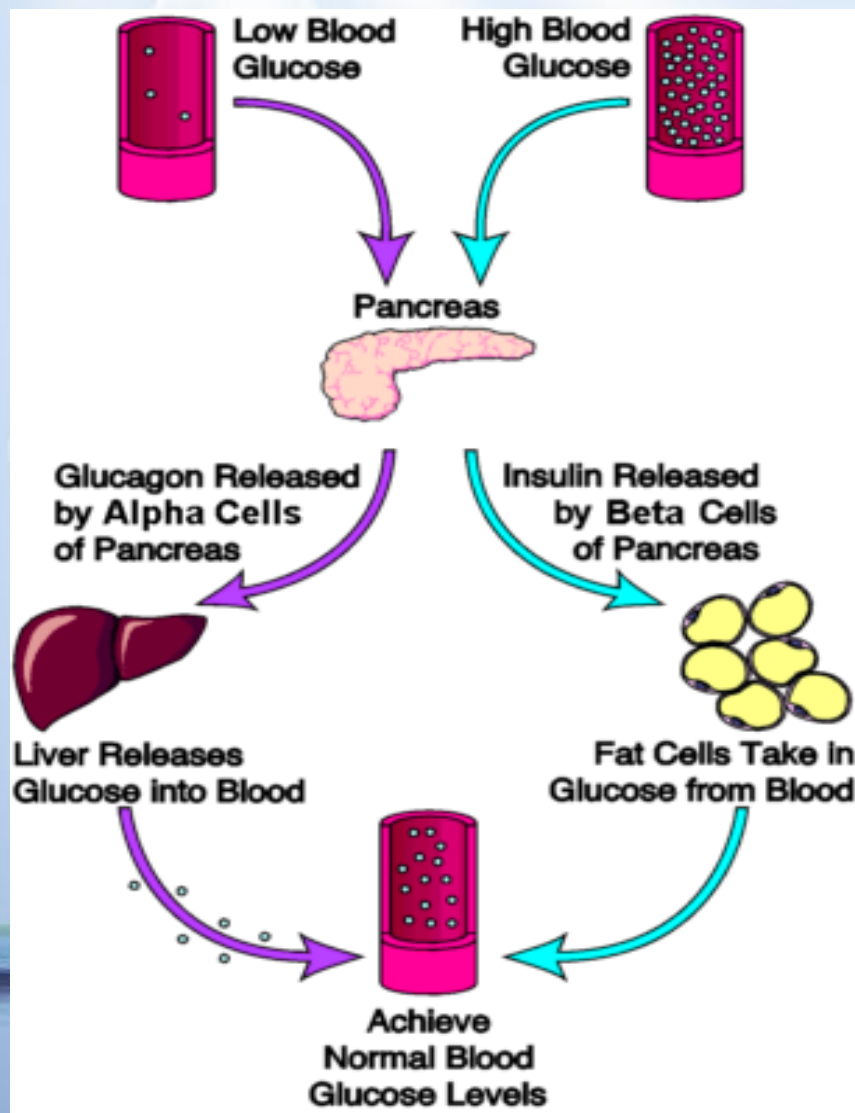

CHOLESTEROL

GASTRITIS

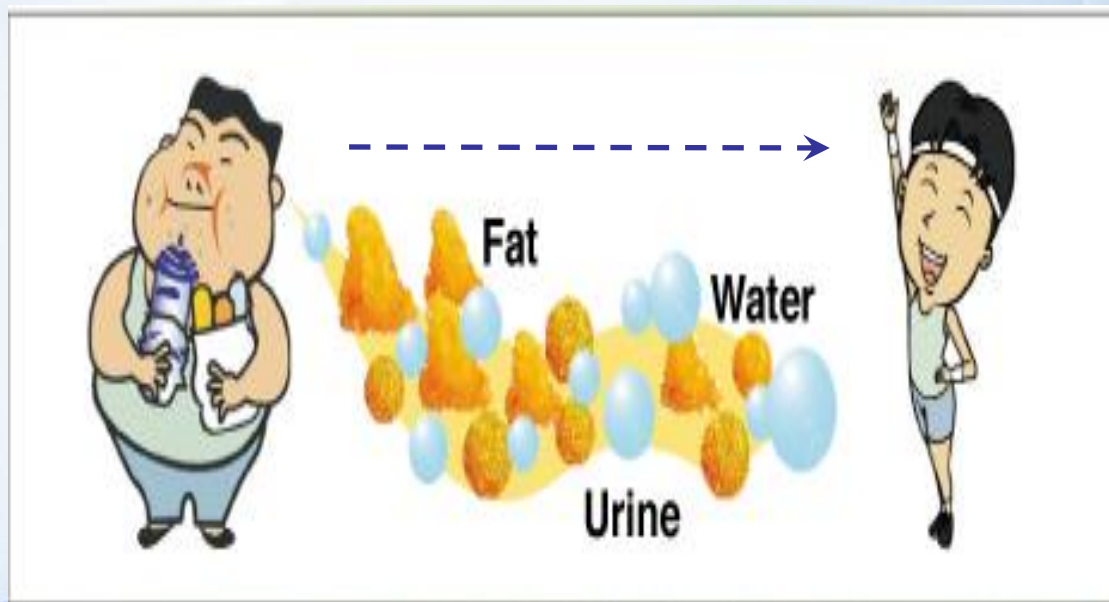

DIABETES

SLIMMING

Hi-Tech Water is Slimming water to help the absorption of water and eliminate waste matters from our body.

ARTHRITIS

Rheumatoid arthritis
(late stage)

Boutonniere
deformity
of thumb

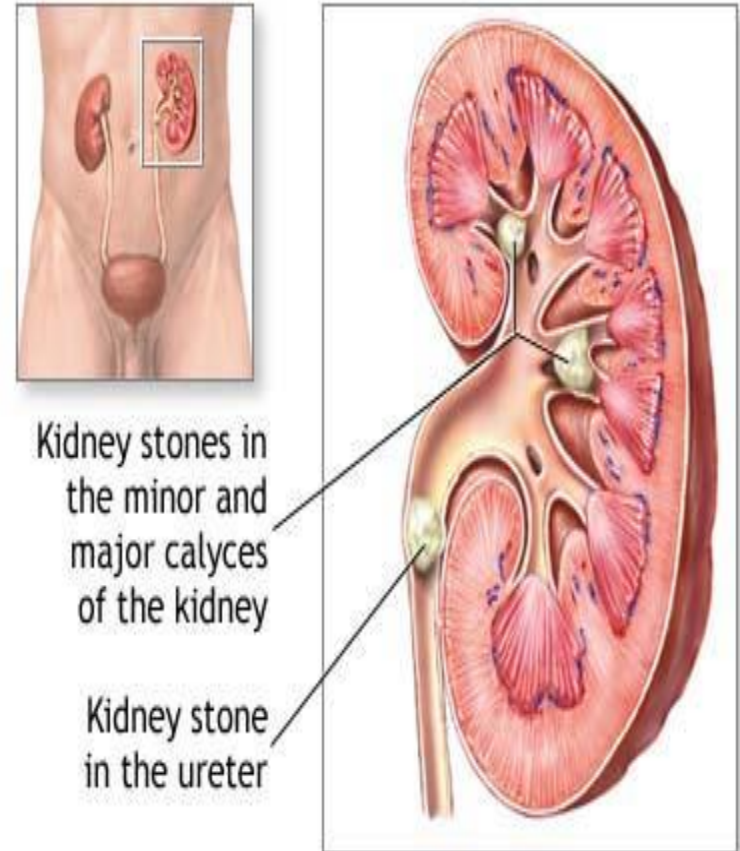

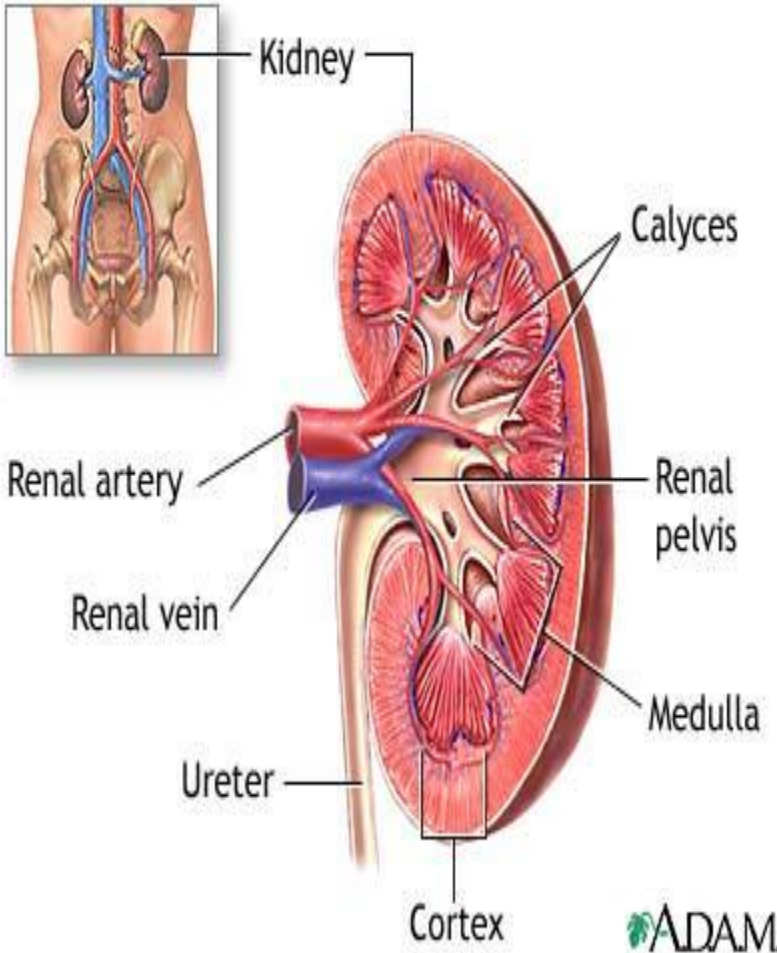

Ulnar deviation of
metacarpophalangeal
joints

Swan-neck deformity
of fingers

Rheumatoid arthritis usually affects joints symmetrically (on both sides equally), may initially begin in a couple of joints only, and most frequently attacks the wrists, hands, elbows, shoulders, knees and ankles

KIDNEY STONE

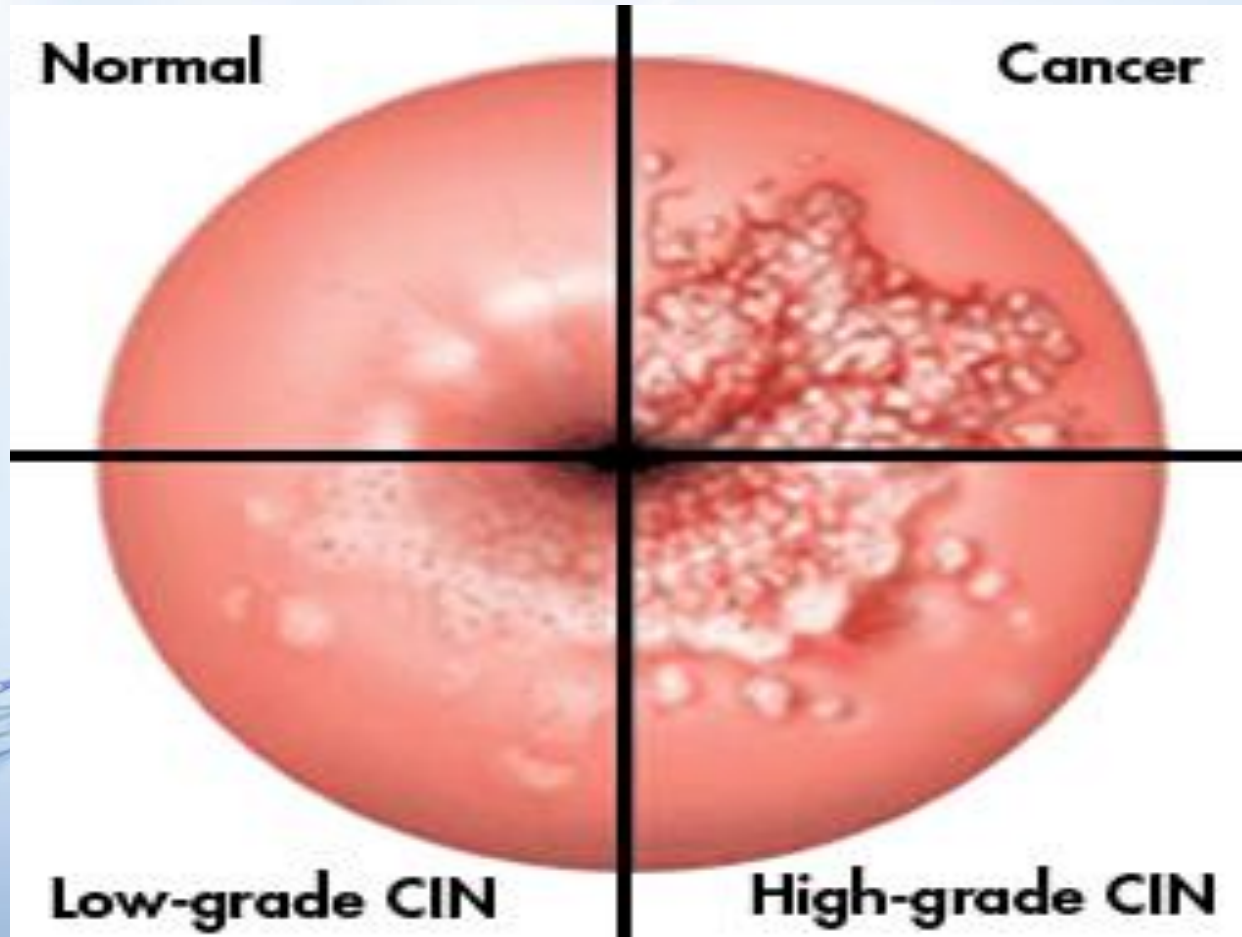

CONSTIPATION
