## Hi-Tech Sweet Water Technologies Pvt. Ltd.

# Purity Begins Here

### About us...

Hi-Tech started importing R.O. based Mineral Water Plants (Domestic & Commercial) from USA and selling, installing, maintaining in local market in 1995. This is how we take credit to be pioneer in introducing Reverse Osmosis based water purification systems in India.

An ever growing demand for pure drinking water, quality of our product and prompt After-Sales Service took us to incorporate a Private Limited company. Thus, in 1999 Hi-Tech Sweet Water Technologies Private Limited was formed by a group of Chemical & Mechanical Engineers with more than 10 years of combined experience in the design, consulting & manufacturing of water desalination and purification using Reverse Osmosis technology.

Hi-Tech is the only company in R.O. system to get ISO 9001-2000 for its Quality Management System by TÜV Rheinland - Germany. We are member of Water Quality Association of India since 1999. We are associated with USA and Taiwan based water treatment companies for procurement of components and design of Commercial R.O. system.

As the company deals into Commercial & Industrial R.O. systems along with Domestic system, we have enrolled our company's name with NSIC & CSPO. The company manufactures packaged R.O. systems for Ground, Bore-well, Well, River and Tap water applications in standard capacities of potable water production from 8 liter per hour to 24000 liter per hour single, double triple tube water filters with and without UV attachment and softener plants in various capacity. We design, manufacture & install customised systems to meet our clients' requirement. We have supplied more than 450 industrial plants for various applications like Bottled water manufacturers, Soft drink manufacturers, Hospitals, Villages, Schools, Colleges, Industries, Corporate Offices, Radiators of earth moving equipments etc. and more than 25000 domestic R.O. plants. We maintain a state of art technologies and equipment to assist our engineers in the selection and designing of the most effective R.O. systems depends on the types of raw water available to each individual client.

### OVERSEAS SUPPLIERS

An ISO 9001-2000 Company

**OUR ACHIEVEMENTS...**

**COMMERCIAL RANGE...**

R.O. PLANT FOR CORPORATE SECTORS, HOTELS, BANKS, RESTAURANTS

R.O. 100 / 150 LPH

R.O. 100 with Cooler

R.O. 50 LPH

**CORPORATE HOUSES & BANKS, HOTELS & RESTAURANTS :**  
 These R.O. Systems provides purest drinking water to you, to your employees and your valuable customers. Plants are economical designed to give the output of pure drinking water @ 10 paisa per liter which helps you to increase your customers list as well as can make delicious food.

**WORK SHOP**

Our rich experienced Technical Designers of Reverse Osmosis have designed various R.O. plants for various source water.

Ultra Deluxe with Mobility

RO 10000 Fully SS Deluxe

BSF Mobile

All our various R.O. Systems are designed & manufactured in such a way that, the plant cause no leakage, less noise, attractive in look & ISI approved. Also having softener, Anti-scalant, pH correction, Chlorination & De-chlorination, Iron removal & other Dosing systems. Built with a good quality material of SS316 & CPVC pipelines & fittings.

Large R.O. System

R.O. Deluxe with high turbidity & heavy Hardness remover dosing pump

High Turbidity & heavy Hardness of water will cause sudden chock up of cartridge filters & membrane. So extra sized sand filter & anti-scalent dosing pump is added for longer life of membranes.

Water Vending Machine

Vending units are custom made, conform to special needs.

- 24 hours around the clock selling machine
- Return your investment within 8-10 months
- Make pure chilled water less than 20 paisa per liter
- Fastest growing business
- Outdoor or Indoor installation
- Coin or manual operated
- Reverse Osmosis & U.V. system

**DOMESTIC RANGE...**

Ultimate

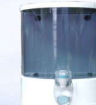

R.O. 10 / 15

Water-Ex

Counter Top

Crystale

Lyon

Lagoon

R.O. Cooler (Hot & Cold)

R.O. 40

R.O. range of 4, 5 & 6 stages for your house having stunning looks, NSF certified components, without noise, with wet sensors & Auto flushing. Plants are designed for low & high TDS source water.
